

CORDOVA ELEMENTARY SCHOOL

VISION

Empowering future leaders to dream it, believe it, and achieve it!

MISSION

We share with the community the responsibility to educate the whole child.

To help students dream big, we will create a rich, varied selection of learning experiences.

So that students believe it, we will establish an environment that nurtures positive self-esteem and generates creativity for all students.

We will also foster a cooperative connection between all stakeholders through the use of technological resources and personal accountability so that all students have the opportunity to achieve it.
